SITUATION SUMMARY

Cal OES Coastal Region - Planned Event and Major Exercise

Monday, 10/06/14 through Tuesday, 10/14/14, the San Francisco Center for Humanitarian Disaster Response (SFCHADR), announces the return of Fleet Week to San Francisco. This year's program will feature several exercises, which include the delivery and demonstration of a United States Marine Corps (USMC) Shock Trauma Platoon at General Hospital, the 'Fifth Annual Senior Leaders' Seminar, the return of the popular 'K9 Heroes Program', and the exchange of best practices with San Francisco Fire Department's (SFFD's) Urban Search and Rescue team. Military medical and air teams will demonstrate the military's capability to enhance overall patient care capabilities within the city following a large-scale disaster (by invitation only).

Further San Francisco Fleet Week Information: http://www.fleetweek.us/

The Blue Angels will be conducting practice flyovers around San Francisco on Thursday, 10/09/14 and Friday, 10/10/14, from 1230 – 1600 hours.

The Air Show will commence on Saturday, 10/11/14 and go through Sunday, 10/12/14.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Dry conditions will persist through the weekend. Temperatures will cool through Friday and then warm inland by Sunday. Rain and cooler temperatures will return next week.

San Francisco Weather:

Slightly cooler weather is forecast for today and Friday. A brief warming trend is then forecast for the weekend as an upper level ridge builds near the west coast. A change in the weather pattern early next week will result in much cooler weather by midweek...along with a chance of precipitation.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Continued dry and warm through the weekend, with a significant cool down and a chance of showers beginning Tuesday.

Hanford Weather:

Mostly clear skies and much above normal temperatures will continue through the holiday weekend. A cool down to near normal temperatures is expected by midweek next week.

WEATHER

WEATHER SYNOPSIS BY REGION:

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Temperatures will be several degrees above normal through Saturday as a weak upper level ridge of high pressure persists. Marine layer cloudiness will affect mainly coastal areas as well. Further warming is then likely Sunday and into early next week as stronger high pressure nudges into northern California. A broad through of low pressure will bring cooling to the area for the middle of next week.

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

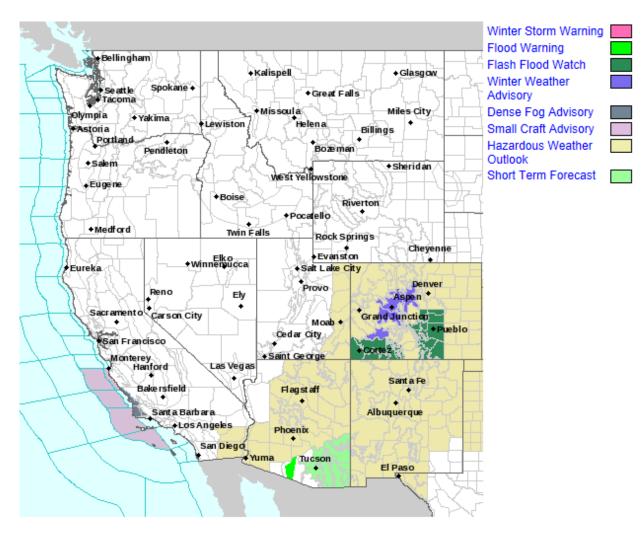

Fair weather will prevail through the middle of next week. Seasonable temperatures today will give way to a slow increase through early next week as high pressure aloft rebuilds. Temperatures will be 5 to 10 degrees above normal Sunday and Monday, and then temperatures will settle back to near normal mid next week as a stronger onshore wind pattern develops. Areas of low clouds will occur most nights and mornings near the coast with a chance of dense fog there over the weekend.

Southeast California Weather:

Lingering showers are possible across portions of the area today as a trough moves through the region. Following the trough much drier air will move into the area resulting in mostly clear skies and near normal temperatures through late next week.
